THE NEVER MISS A CUSTOMER FLYWHEEL

Never miss **a customer.**

A simple system that answers every enquiry, rescues missed calls and turns happy customers into five-star reviews.

THE PROBLEM

Busy is good. **Missed enquiries are not.**

Calls you cannot answer

You are with a customer or on a job. The caller hangs up and rings the next business on Google.

Forms that wait until morning

Someone enquires at 10pm. By the time you reply, they have already booked with someone else.

Reviews nobody asks for

Your customers are happy, but only a few leave a review, so competitors look stronger online.

None of this is about working harder. **It just needs a system.**

HOW IT WORKS

Answer faster. Book more. **Do it again.**

Every enquiry gets a reply in seconds, every missed call gets a text back, and every happy customer is asked for a review. More reviews bring more enquiries, so the wheel spins faster every round.

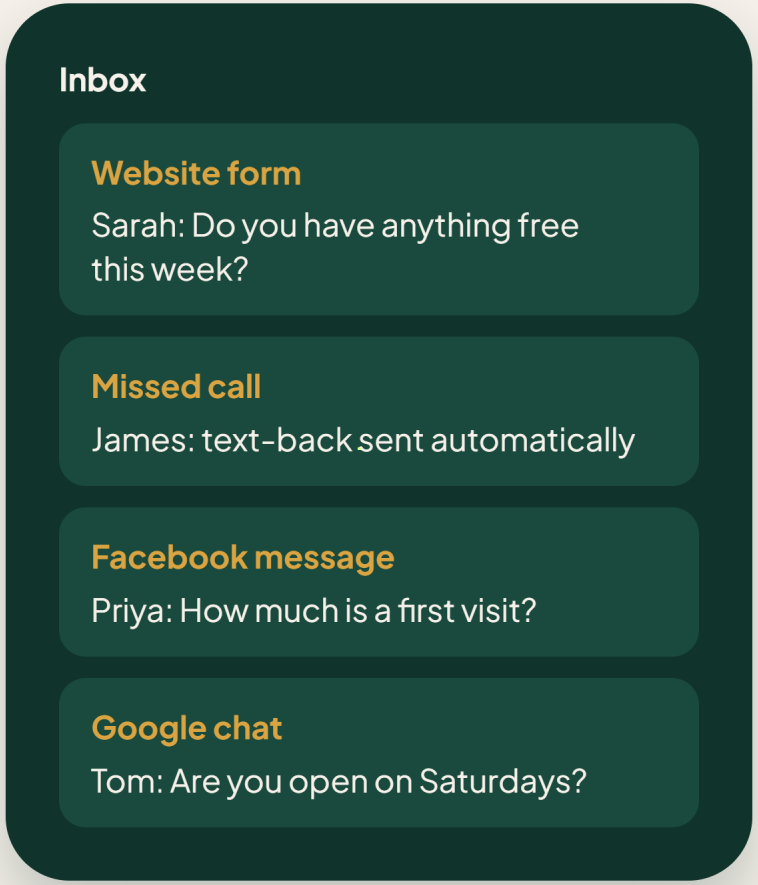

STEP 01 OF 06

Capture every enquiry

Website forms, Facebook messages, Google chats and phone calls all land in one inbox on your phone. Nothing sits in an email folder you forgot to check.

WHAT YOU GET

One place for every lead, right on your phone.

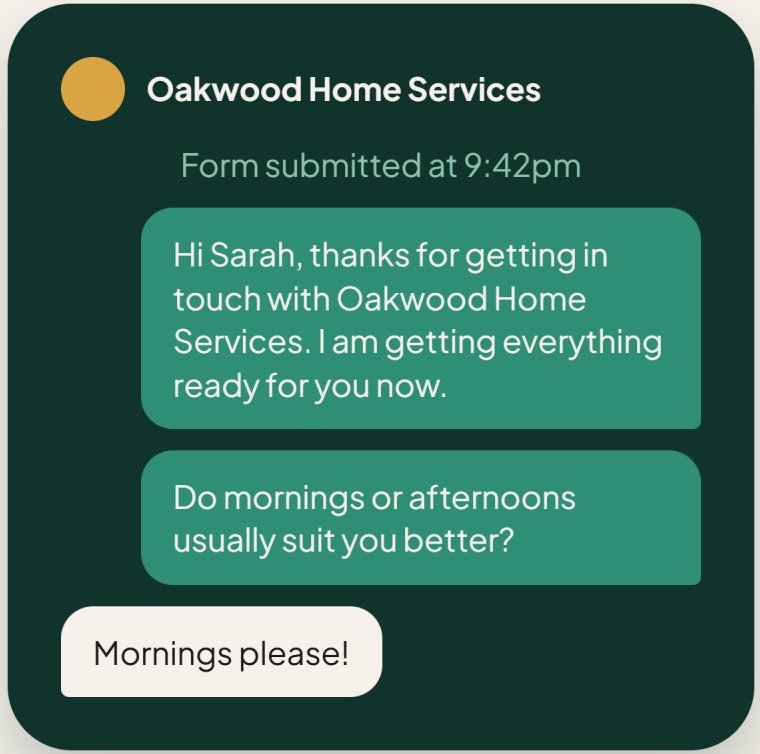

STEP 02 OF 06

Reply in seconds

The moment someone fills in your form, they get a friendly text from your business and you get an alert. They hear from you before they have time to try a competitor.

WHAT YOU GET

Every lead feels looked after straight away, day or night.

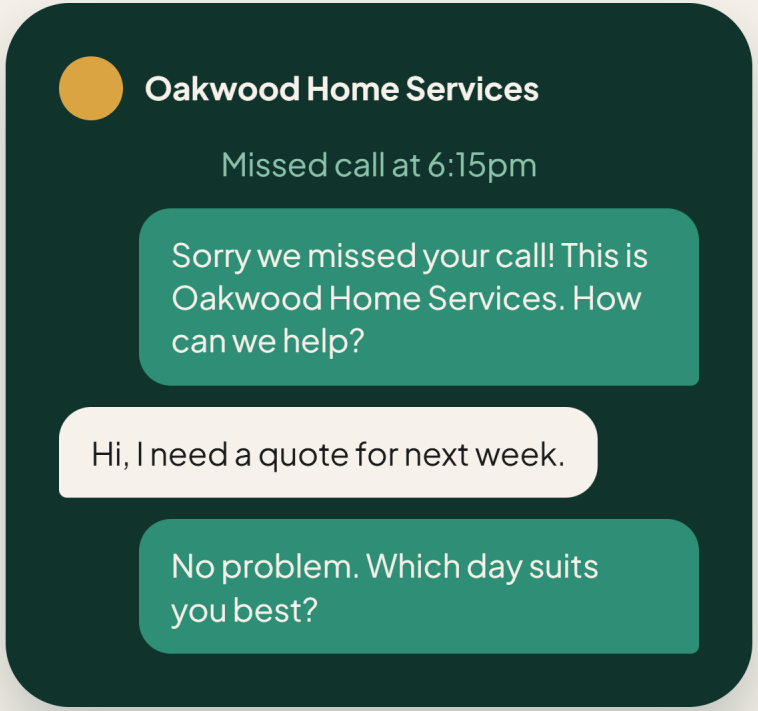

STEP 03 OF 06

Rescue missed calls

On a job, with a customer or closed for the night? When a call is missed, the caller gets a text straight away, so the conversation carries on instead of moving to a competitor.

WHAT YOU GET

Missed calls become conversations, not lost jobs.

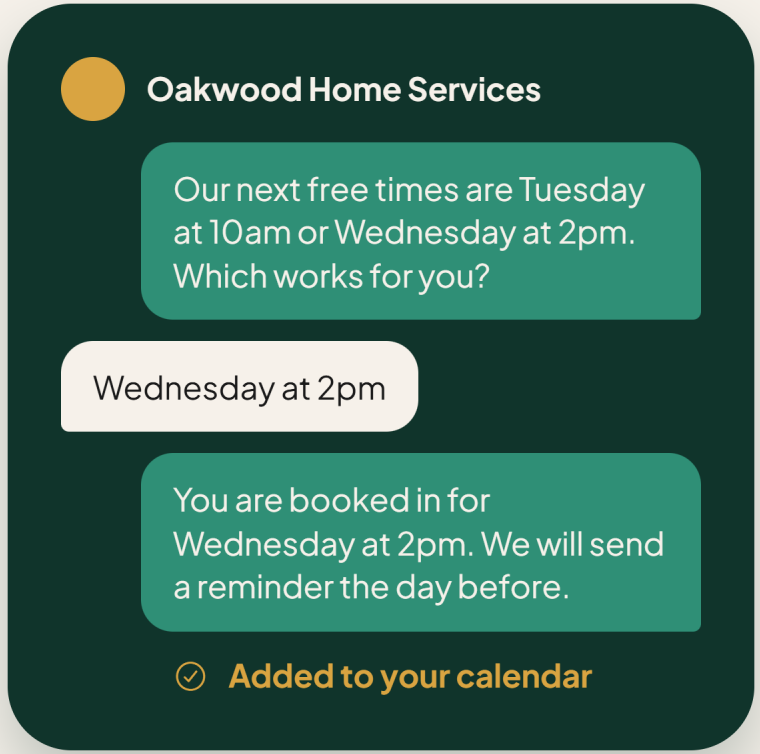

STEP 04 OF 06

Book automatically

Replies lead straight to your calendar. A simple assistant offers times and books people in by text, and everyone gets a reminder, so fewer people forget to turn up.

WHAT YOU GET

Appointments land in your diary while you work.

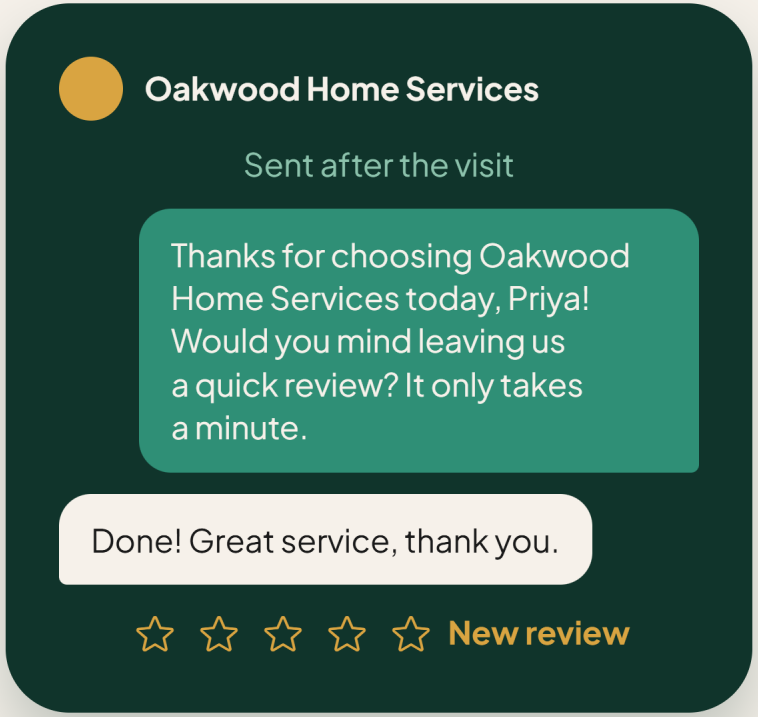

STEP 05 OF 06

Earn 5-star reviews

After each visit or job, the customer gets a short text asking for a Google review, with a gentle reminder if they forget. Every happy customer is asked, not only when you remember.

WHAT YOU GET

More five-star reviews and a stronger presence on Google.

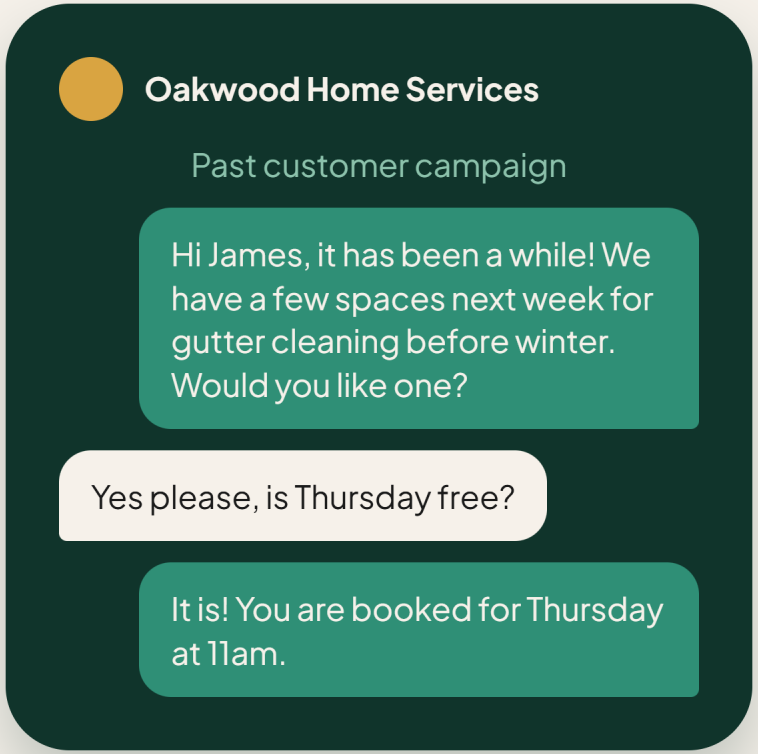

STEP 06 OF 06

Bring customers back

Your list of past customers is valuable. We send them a friendly campaign, such as a seasonal offer or a simple check-in, to fill the quiet gaps in your diary.

WHAT YOU GET

Bookings from people who already know and trust you.

WHY IT KEEPS GETTING BETTER

More reviews bring more enquiries. Every enquiry gets answered. **The wheel spins faster every round.**

You do not need more hours in the day. You need every customer who already wants you to reach you, book with you and come back.

YOUR PART

One 30 minute call. **We handle the rest.**

You keep running your business. We build, test and look after the system for you.

- Access to your website form, or your web person's details
- Your Google Business Profile link
- Your past customer list, if you have one
- Your opening hours, services and how you like to book
- Business details for text message registration

THE PLAN

Live within **2 days**

DAY 1, MORNING

Kick-off

A 30 minute call. We collect access and learn how you work.

DAY 1, AFTERNOON

Build

Your system is set up, your forms connected and your business number ready.

DAY 2, MORNING

Test

Messages written in your tone, and every step tested from start to finish.

DAY 2, AFTERNOON

Go live

Switched on, your past customer campaign sent and a short walkthrough video for you.

Phone networks must approve business texting. Approval can sometimes take longer, and we will keep you updated.

INVESTMENT

Simple, **honest pricing**

SETUP

$300

One-off. Waived for founding clients.

MONTHLY

$300

The full system, your business number, upkeep, small changes and a monthly summary.

Our promise

Live within 2 days of getting access, or your first month is free.

No long contract: month to month after the first 3 months.

Ask yourself: **what is one extra booking a month worth to your business?**

NEXT STEP

Book a call and **see it working**

1. Book a short call
2. See a live demo on your own phone
3. Go live within 2 days
